March 2026 | www.rtechgroup.co.in

March marked a phase of accelerated activity and visible progress across the R-Tech Group. Building on the stability of previous months, the focus shifted towards execution at scale, improved coordination, and strengthening on-ground performance across all projects. Teams operated with increased alignment, ensuring smoother operations and enhanced service delivery across developments.

Consistency builds momentum — and momentum builds success.

March Highlights:

- * Enhanced operational efficiency across all active sites
- * Improved coordination between departments for faster execution
- * Continued focus on tenant servicing and issue resolution
- * Strengthening of compliance and monitoring systems
- * Streamlined processes for better control and accountability

March witnessed a more structured and execution-driven approach, with teams focusing on timely delivery and proactive management. Increased coordination between operations, finance, and site teams helped ensure that routine processes were handled efficiently while maintaining service quality.

Looking Ahead – March & Beyond

- * Further improvement in execution speed and efficiency
- * Strengthening tenant engagement and service experience
- * Increased adoption of technology for operations and reporting
- * Focus on scalability and process standardization
- * Continued financial discipline and cost optimization

The News

March continued the positive momentum with steady leasing activity and growing interest from brands across developments. The ongoing addition of retail and commercial presence reflects sustained confidence in our projects and reinforces their positioning as preferred business destinations.

Our Vision

March reinforced the importance of execution, adaptability, and team alignment. With a clear focus on long-term growth and operational excellence, the organization continues to move forward with a balanced approach — combining stability with progress, and strategy with consistent on-ground delivery.

Events this month

Events:

Holi was celebrated across all sites with enthusiasm, bringing together teams and stakeholders in a spirit of unity and positivity. The celebrations added a vibrant touch to the work environment, strengthening team bonding and fostering a sense of community. Moments like these reflect the organization's culture of togetherness, while maintaining harmony between celebrations and operational responsibilities.

Admin Talks

Mr. Rajesh Yadav

Managing Director

“March reflected a phase of accelerated execution and stronger on-ground performance across projects. With systems and processes becoming more streamlined, the focus remained on driving efficiency, ensuring timely delivery, and maintaining consistency in operations. The emphasis continues to be on building momentum while aligning all efforts with long-term growth objectives.”

Mr. Achal Agarwal

Executive Director

“March required focused supervision across sites, with increased activity in leasing, fit-outs, and routine operations. Ensuring operational readiness, maintaining compliance standards, and minimizing disruptions remained critical. The coordinated efforts of site teams played a significant role in maintaining smooth and efficient functioning.”

Mr. Deepak Pareek

CFO

“The month involved structured monitoring of financial performance, with a continued focus on cost optimization, timely reconciliations, and maintaining transparency across transactions. Strengthening internal controls and improving financial discipline remained key priorities to support operational scalability and sustained growth.”

Kritika Yadav

VP-Admin & Operations

“March emphasized the importance of coordination, follow-through, and proactive communication. From managing operational updates to ensuring alignment between departments, the focus remained on seamless execution of planned activities. Continuous tracking and timely interventions helped maintain clarity and consistency across all functions.”
