April 2026 | www.rtechgroup.co.in

April marked a phase of strong execution and operational maturity across the R-Tech Group. With systems and processes now more structured, the focus shifted towards delivering consistent performance at scale. Teams demonstrated improved ownership, faster decision-making, and better coordination across departments, resulting in smoother operations and enhanced overall efficiency across all sites.

Execution with discipline — driving performance with consistency.

April Highlights:

- * Stronger inter-department coordination for seamless execution
- * Enhanced monitoring and control mechanisms across sites
- * Continued focus on tenant satisfaction and service quality
- * Better financial tracking and accountability across operations

April reflected a shift from structured execution to performance optimization, with teams focusing on refining processes and ensuring consistency in delivery. Operations, finance, and site teams worked in close alignment to maintain control over daily activities while improving responsiveness and efficiency.

Looking Ahead – April & Beyond

- * Further strengthening of operational controls and reporting systems
- * Continued focus on improving tenant experience and engagement
- * Increased efficiency through process optimization and automation
- * Focus on cost control and financial discipline across projects
- * Building scalability for upcoming developments and expansions

The News

April sustained the positive momentum with continued leasing activity and increasing engagement from brands across developments. The steady expansion of retail and commercial presence highlights growing market confidence in our projects and further strengthens their positioning as preferred business and retail destinations.

Our Vision

April emphasized the importance of disciplined execution, operational consistency, and continuous improvement. With a clear focus on long-term growth and scalability, the organization remains committed to delivering excellence through strong processes, aligned teams, and consistent on-ground performance — balancing strategic direction with effective execution.

Events this month

Events:

A Hi-Tea Party was successfully hosted at Palmera Garden on 5th April 2026 bringing together teams in a relaxed and engaging setting. The gathering provided an opportunity for informal interaction, strengthening team bonding and cross-functional connections. The event reflected the organization's focus on fostering a positive work culture alongside operational excellence.

Admin Talks

Mr. Rajesh Yadav

Managing Director

“April reflected a phase of disciplined execution and operational consistency across all projects. With processes now more structured, the focus was on improving efficiency, ensuring accountability, and maintaining steady performance across sites. Moving forward, the emphasis remains on strengthening execution capabilities while building a scalable and sustainable growth framework.”

Mr. Achal Agarwal

Executive Director

“April saw steady activity across sites with a focus on maintaining operational efficiency and readiness. Managing leasing progress, overseeing fit-outs, and ensuring compliance remained key areas of attention. Consistent supervision and coordination by site teams ensured smooth day-to-day functioning and minimal disruptions.”

Mr. Deepak Pareek

CFO

“April involved closer monitoring of financial performance with a continued focus on cost control, accurate reconciliations, and timely reporting. Strengthening financial systems and ensuring transparency across transactions remained key priorities. The approach continues to support better decision-making and long-term financial stability.”

Kritika Yadav

VP-Admin & Operations

“April highlighted the importance of consistency, coordination, and timely execution across functions. The focus remained on ensuring smooth communication, tracking ongoing activities, and addressing issues proactively. Strong alignment between teams helped maintain operational clarity and improved overall efficiency.”
